SCI E&C Joint Stock Company would like to explain that the Profit after Corporate income tax of the third quarter of 2025 in the Separate financial statement changes by 10% or more compared to the same period of the previous year (previous period) as follows:

Unit: VND

No.	Item	Quarter III of 2025	Quarter III of 2024	Differences ratio %
1	Net revenue from sales and services rendered	201,287,473,256	236,618,568,852	(14.93)%
2	Cost of goods sold	177,248,903,020	263,228,705,591	(32.66)%
3	Gross profit from sales and services rendered	24,038,570,236	(26,610,136,739)	(190.34)%
4	Financial income	4,223,311,286	2,894,573,187	45.90%
5	Financial expenses	5,807,076,516	10,579,794,064	(45.11)%
6	Net profit from operating activities	8,991,211,175	(48,148,774,983)	(118.67)%
7	Other profit (loss)	(1,155,264,837)	48,899,001,006	(102.36)%
8	Profit after corporate income tax	7,835,946,338	602,770,697	1,199.99%

Reasons :

During the period, the Company was constructing new projects, so both Revenue and Cost of goods sold decreased. The decrease rate of Cost of goods sold is different from decrease rate of Revenue, leading to an increase in Gross profit on sales and services rendered this period compared to the previous period.

Financial activity revenue in this period increased compared to the previous period due to exchange rate differences arising from overseas construction activities. The financial expenses for this period decreased compared to the previous period due to a reduction in the principal loan amount, leading to lower interest expenses for the Company. Aggregating the above factors, the net profit from operating activities in this period increased compared to the

previous period.

Other profits decreased compared to the same period last year, as in the third quarter of 2024, the Company generated income from the reversal of warranty provisions for some projects.

Combining the above factors, the Profit after corporate income tax increased when compared to the previous period.

Declaration of compliance with Accounting Standards and Accounting System

The Company applies Vietnamese Accounting Standards and supplement documents issued by the State. Financial statements are prepared in accordance with regulations of each standard and supplement documents as well as with current Accounting Standards and Accounting System.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS**FORM B 09-DN***These notes are an integral part of and should be read in conjunction with the accompanying Separate Financial Statements***4 . SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The significant accounting policies, which have been adopted by the Company in the preparation of these financial

Estimates

The preparation of financial statements in conformity with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the accounting period. Although these accounting estimates are based on the management's best knowledge, actual results may differ from those estimates.

Basis for preparation of financial statements

Financial statements are presented based on historical cost principle.

Financial statements of the Company are prepared based on summarization of transactions incurred, then recorded into accounting books of dependent accounting entities and at the offices of the Company.

In the financial statements of the Company, the intra-group balances and transactions related to assets, equity, receivables and payable are eliminated in full.

Financial Instruments***Initial recognition***

Financial assets: At the date of initial recognition, financial assets are recognised at cost plus transaction costs that are directly attributable to the acquisition of the financial assets. Financial assets of the Company comprise cash, cash equivalents, trade and other receivables, deposits, financial investments and derivative financial instruments.

Financial liabilities: At the date of initial recognition financial liabilities are recognised at cost plus transaction costs that are directly attributable to the issue of the financial liabilities. Financial liabilities of the Company comprise trade and other payables, accrued expenses, obligations under finance leases, borrowings and derivative financial instruments.

Subsequent measurement after initial recognition

Currently, there are no requirements for the subsequent measurement of the financial instruments after initial recognition.

Foreign currency transactions

The foreign currency transactions during the year are converted into Vietnam dong with the real exchange rate at the transaction date. Real exchange rates are determined as the following principles:

- When buying or selling foreign currency: are exchange rates concluded in contracts of foreign exchange sale between Company and commercial banks;
- When recording receivables: are exchange rates of purchase of commercial banks where Company assigned customers to make payment at the time of incurred transactions;
- When recording liabilities: are exchange rates of purchase of commercial banks where Company expects to conduct transactions at the time of incurred transactions;
- When purchases of assets or expenses paid immediately in foreign currency: are the rate of purchase of commercial banks where Company makes payments.

Real exchange rate upon re-determining accounts derived from foreign currencies at the date of the Consolidated Financial Statements is determined on the following principles:

- For accounts classified as asset: applies exchange rates of purchase of commercial banks where Company regularly conducts transaction;
- For foreign currency deposited in bank: applies exchange rate of purchase of the bank where Company opens foreign
- For accounts classified as liabilities: applies exchange rates of selling foreign currency of commercial banks where Company regularly conducts transaction.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

FORM B 09-DN

These notes are an integral part of and should be read in conjunction with the accompanying Separate Financial Statements

All sums of real exchange rates for foreign currency transactions in the year and real exchange rate upon re-determining accounts derived from foreign currencies at the end of the year are recorded immediately to results of business operations in accounting year.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Cash and cash equivalents comprise cash on hand, demand deposits and short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Financial investments

Trading securities

Trading securities are those the Company holds for trading purpose. Trading securities are recognised from the date the Company obtains the ownership of those securities and initially measured at the fair value of payments made at the transaction date plus directly attributable transaction costs.

In subsequent periods, investments in trading securities are measured at cost less provision for impairment of such investments.

Provision for impairment of investments in trading securities is made in accordance with prevailing accounting

Held-to-maturity investments

Held-to-maturity investments comprise investments that the Company has the positive intent or ability to hold to maturity, including term deposits (commercial bills), bonds, preference shares which the issuer shall redeem at a certain date in the future, loans held to maturity to earn periodic interest and other held-to-maturity investments.

Held-to-maturity investments are recognised on a trade date basis and are initially measured at acquisition price plus directly attributable transaction costs. Post-acquisition interest income from held-to-maturity investments is recognised in the income statement on accrual basis. Pre-acquisition interest is deducted from the cost of such investments at the acquisition date.

Investment in subsidiaries

A subsidiary is an entity over which the Company has control. Control is achieved where the Company has the power to govern the financial and operating policies of an investee enterprise so as to obtain benefits from its activities.

Interests in subsidiaries are initially recognised at cost. The Company's share of the net profit of the investee after acquisition is recognised in the income statement. Other distributions received other than such profit share are deducted from the cost of the investments as recoverable amounts.

Provision for investment devaluation is made when the investment recipient incurs losses, based on the financial statements of the subsidiary at the time of provisioning.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS

FORM B 09-DN

These notes are an integral part of and should be read in conjunction with the accompanying Separate Financial Statements

Receivables

Receivables represent the amounts recoverable from customers or other debtors and are stated at book value less provision for doubtful debts.

Provision for doubtful debts is made for receivables that are overdue for six months or more, or when the debtor is in dissolution, in bankruptcy, or is experiencing similar difficulties and so may be unable to repay the debt.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost comprises direct materials and where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Net realisable value represents the estimated selling price less all estimated costs to completion and costs to be incurred in marketing, selling and distribution.

The cost of inventory is calculated by weighted average method

Inventory is recorded by perpetual *method*.

Method for valuation of work in process at the end of the period:

- Works in progress is obtained for each construction project unfinished or related unrecognised revenue, corresponding to the workload unfinished at the end of the period.

The evaluation of necessary provision for inventory obsolescence follows current prevailing accounting regulations which allow provisions to be made for obsolete, damaged, or sub-standard inventories and for those which have costs higher than net realisable values as at the balance sheet date.

Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less accumulated depreciation.

The costs of purchased tangible fixed assets comprise their purchase prices and any directly attributable costs of bringing the assets to their working condition and location for their intended use.

The costs of self-constructed or manufactured assets are the actual construction or manufacturing cost plus installation and test running costs.

Tangible fixed assets are depreciated using the straight-line method over their following estimated useful lives:

- Buildings, Structures	40 years
- Machine, equipment	03 - 15 years
- Means of transport and transmission	03 - 10 years
- Management equipment, tools	03 - 05 years
- Other fixed assets	03 - 05 years

Leasing

Leasing assets is considered a financial lease when most of the benefits and risks of asset ownership are transferred to the lessee. All other leases are considered operating leases.

Assets held under finance leases are recognised as assets of the Company at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the balance sheet as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged to profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Company's general policy on borrowing costs (see below).

NOTES TO THE SEPARATE FINANCIAL STATEMENTS**FORM B 09-DN***These notes are an integral part of and should be read in conjunction with the accompanying Separate Financial Statements*

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives, as follows:

- | | |
|----------------------------|---------------|
| - Machine, equipment | 04 - 08 years |
| - Transportation equipment | 08 years |

Prepayments

Prepayments are expenses which have already been paid but relate to results of operations of multiple accounting periods.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS**FORM B 09-DN***These notes are an integral part of and should be read in conjunction with the accompanying Separate Financial Statements***Market risk**

The Company's business operations will bear the risks of changes on prices, exchange rates and interest rates.

Price Risk

The Company bears price risk of equity instruments from short-term and long-term security investments due to uncertainty on future prices of the securities. Long-term securities are held for long-term strategies, at the end of the fiscal year, the Company has no plans to sell these investments.

Exchange rate risk

The Company bears the risk of exchange rate due to fluctuation in fair value of future cash flows of a financial instrument according to changes in exchange rates if loans, revenues and expenses of the Company are done in foreign currencies other than VND.

Interest rate risk

The Company bears the risk of interest rates due to fluctuation in fair value of future cash flow of a financial instrument according to changes in market interest rates if the Company has time or demand deposits, loans and debts subject to floating interest rates. The Company manages interest rate risk by analyzing the market competition situation to obtain any interest profitable for its operation purpose.

Credit Risk

Credit risk is risk in which the potential loss may be incurred if a counterpart fails to perform its obligations under contractual terms or financial instruments. The Company has credit risk from operating activities (mainly for trade receivables) and financial activities (including bank deposits, loans and other financial instruments).
